Subject: requirements for resumption of recreation and opening of water intakes along the Animas river -4pm/ [Nonresponsive Conference Code]

Hi Marybeth

I work for the Agency for Toxic Substances and Disease Registry Region 8 in Denver (affiliated with the Centers for Disease Control) am assisting EPA Region 8 in setting up a short conference call 8 to start a discussion about Durango and San Juan County requirements for allowing resumption of recreation and use of water intakes. The purpose is to find out what support (technical assistance, information) might be needed by your local government structures. We realize that the conference call might only focus on the water delivery system, as decisions about resuming recreation is part of the sheriff's Department.

Wendy O'Brien is an EPA Region 8 toxicologist and has also requested counterparts from EPA Region 6 and Region 9, and possibly a couple of NM state water quality staff.

The conference call line we can use at 4 pm is

Nonresponsive Conference Code

Thanks very much

Chris
